EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul Grandinetti on 2/16/2007.

2. The application has been amended as follows:

In the Claims

- In Claim 1 (line 3), after "wherein the hydrofoil element", -- **at the stern** -- has been added.

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

- In figure 4, a curved line with arrows has been added to indicate that the hydrofoil is capable of rotation on a transverse axis, as recited in claim 1 (see Examiner's annotation below).

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Note: Applicant is reminded that any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "**Replacement Sheet**" or "**New Sheet**" pursuant to 37 CFR 1.121(d).
